From Hon. W. H. Jones, of West Dover, Vermont.

"I have been troubled from my boyhood with chronic or hereditary lung complaint. Some years since, early in the winter, I took cold, which as usual settled into a severe cough, which continued to increase as the season advanced, although I made use of all the cough remedies I had knowledge of. My family physician also prescribed for me, but I felt no relief. During all this time I was gradually running down, losing flesh and strength, until my friends as well as myself, became very much alarmed, thinking I should waste away in consumption. While in Boston, during the spring following, I was induced to try WISTAR'S BALSAM OF WILD CHERRY. After one day's trial I was sensible that it was relieving me; in ten days time my cough had entirely ceased, and I was soon restored to my health and strength. I have ever since kept the BALSAM in my house, and whenever any member of my family has a cough or cold, it is immediately resorted to. No family should be without it." Sold by all druggists.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine, often intermingled in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschnee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill and, perhaps, death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial 10 cents; regular size, 75 cents. *

Coming to Oregon.

The afflicted will be glad to learn that a corps of Surgeons from the National Surgical Institute, fitted out with a complete assortment of apparatus for the treatment of every human deformity, will again visit Portland, Oregon, at the St. Charles Hotel from June 25th to July 1st, inclusive, 1878. This Institution, originally founded at Indianapolis, Indiana, has extended its business throughout the United States and has attained a reputation for the successful treatment of Spinal Curvature, Hip and Knee Joint Diseases, Club Feet, Paralysis, Piles and Fistula, heretofore unknown to the profession. References of the highest order can be given. *

PEACE PROCLAIMED.—After ten years of active warfare! I have been at war with my customers for ten long years, and I am now ready to DYE FOR THEM at reduced rates. Gents' clothes cleaned and repaired; faded curtains and clothing restored and made to appear as good as when new. Customers abroad will not have reason to grumble at prices if they send their articles to T. W. Pierre, tailor and dyer, Yates street, opp. Alhambra Hall. Castoff clothing taken in exchange for work. *

DENTISTRY.—Dr. Cool calls attention to the beautiful alluminium-lined vulcanite plates for upper and lower sets. The advantage of this work is that it is very thin, much stronger and lighter than the common plate usually worn; also, being a better conductor of heat and cold, it does not produce the iritation, sometimes caused by rubber or non-conducting substances. I make these sets for $35, something never before done, and guarantee my patrons that after once wearing one of them they will wear no other. The treatment of diseased teeth and fine operating I make a specialty. Teeth built up with pure gold to their natural contour; artificial crowns adjusted to roots in the best manner. Work of every description done anywhere I engage to do at the most reasonable prices. *

The Machine was Worn Out.

Why? Not because it was not well built, but it was wrongly run. Thousands of men who have run down long before their three-score and ten years are accomplished, might have been renewed into sprightliness and vim if they had tried the well-known PERUVIAN SYRUP, which contains among its compounds the Protoxide of Iron, so combined that it assimilates with the blood and invigorates the whole system. This syrup has proved efficacious in thousands of cases, and will do everybody good who uses it. All druggists keep it. *

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superceded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort Street, and sold by all the principal dealers. *

IF heretofore you have been unable to wear a set of artificial teeth call on Dr. Cool. He will guarantee all his work *

THE COMMONS.—Mr. Wm. Dalby will be a candidate for the Commons in Victoria District. *

POLITICAL.

To the Electors of the District of Victoria, V. I.

GENTLEMEN: In coming before you as a candidate for the honor of being one of your representatives in the House of Commons in the next Parliament of Canada, I desire as briefly as possible to state my views on the main political issues of the day.
To my mind the Railway question in importance to the whole Province overshadows all others, and next to the Railway in importance to Victoria District is the construction at Esquimalt of a first-class Graving Dock. If elected, I shall most strenuously assist in demanding from the Dominion Government the just rights of this Province in connection with these two vital questions. I shall expect no impossibilities; but I shall demand from the Canadian Government an earnest commencement and faithful prosecution in this Province of the Canadian Pacific Railway. Nothing short of this will fulfil the solemn treaty obligations of Canada to British Columbia. So far we have had plenty of promises from Canada, which, alas! to her shame and disgrace have been broken; and sooner than submit to be humbugged in the future as we have been in the past I would sever the cord that binds us to the Confederation. I sincerely hope, however, the day will never come when this or any other Province in the Dominion will be forced for self protection to adopt so high-handed a remedy. In reference to the two political parties in Canada I believe the policy of the Liberal Conservative party best calculated to advance the true interest of our country, and to make it in deed, as well as in word, a great and prosperous Dominion. I further believe that in Sir John Macdonald, the Hon. L. H. Langevin and the Hon. S. L. Tilley we have true friends—men who have the heart and ability to carry out the liberal and advanced plans of the deeply lamented statesman Sir Geo. Cartier, whose rallying cry was, "All aboard for the West!" If elected, it shall be my pleasure to give that party a hearty support, providing they extend to this Province what is fair, right and just. I consider our first duty is to ourselves as British Columbians, and that if we are united and true to our own interests and act as one man in demanding simple justice we shall prevail. I shall aim to harmonize our own contending sectional elements, so as to make our power as a Province felt, always remembering that "united we stand, divided we fall.
If the foregoing views meet with your approval, and you think I have sufficient independence of character to carry them out, I respectfully ask your support.
I am, your obedient servant,
J. H. TODD.

NOTICES.

LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

ALL APPLICATIONS FOR PRIVATE BILLS, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North American Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act—shall require a Notice, clearly and distinctly specifying the nature and object of the application to be published as follows:—
A notice inserted in the BRITISH COLUMBIA GAZETTE and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.
Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.
Before any petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such a Bill shall, upon giving the notice prescribed by the preceding rule, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

Daily Colonist.

THURSDAY MORNING, JUNE 27TH, 1878.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorised Agent in San Francisco.

VALE.

Yesterday was enacted the closing scene in the official life of the Elliott Ministry, and the late occupants of Ministerial seats "stepped down and out" in obedience to the demand of the people as expressed through the ballot-box. It is not our intention to indite an eulogium on the merits of the deceased Ministry; but we think we may fairly claim that the substantial and marked progress of Province and people has been the result of their policy. It will not be denied that they found the country's credit gone and the Province generally out-at-the-elbows, and that they have relinquished the helm of state with the country's credit fully restored and Provincial bonds quoted at a higher rate on 'Change than those of any other Province or Colony. It cannot be denied that during the past two years and a-half considerable advancement has been made by every branch of industry, that thousands of acres of unoccupied land have been purchased and pre-empted, and that there have been large accessions to the population. It will not be disputed that under their wise administration a scheme for the reclamation of vast tracts of submerged lands in Fraser Valley has been successfully inaugurated; that aid and encouragement have been extended to the quartz-mining interest of the Province; that many wholesome laws have been placed on the statute-book; and that the effect of their policy in the management of internal affairs has been generally good. That they have made mistakes is not improbable; but we shall ever stoutly maintain that those mistakes have been few in number and, in the face of the great good their policy has conferred on the country, not worth mentioning. A grave charge of bribery and corruption was laid at their door during last session; but the friends of the late Government need entertain no fear as to the result of an investigation. The evidence thus far is of the most flimsy character, and the public must shortly be informed that the charge has not been sustained. In the meanwhile, however, pending acquittal by their judges, the Government were placed on trial before the popular tribunal and executed, for it cannot be denied that at least two of the Government candidates in the city owe their rejection at the polls to the existence of these unproved charges. Another cause of the popular verdict existed in the fact that the late Government found it absolutely necessary, in order to meet financial requirements, to impose a light and equitable tax on real and personal property. Taxation in whatsoever form is odious; especially so when it is imposed on a people who have previously enjoyed immunity from such burthens. The late Government went to the country with the tax-gatherer's badge about their necks, and they went under, notwithstanding the well-known fact that amidst the rubbish found in the Government offices when the Elliott Government took possession was a carefully-drawn Bill to levy taxes on real and personal property! British Columbians have not yet learned that taxation and Government go hand-in-hand, and that if they want protection for life and property, good roads and bridges and free education, they must contribute towards them. Perhaps they will be brought to understand their duty better in this respect in the next year or two. But the offence of offences—the unpardonable sin laid at the door of the deceased Government was that they had intrigued with the Mackenzie Government for the defeat of the Canadian Pacific Railway. We defy their enemies to produce a single line, sentence or scrap of paper that will go to establish in the remotest sense the damaging accusation. Every dispatch on the subject sent by them to Canada and England urged upon the two Governments the importance of immediate construction; and when they consented to "the delay of a single summer" it was in response to the urgent request of Lord Carnarvon, who accompanied the request with the significant remark that precipitate action on the part of the Province would but tend to prejudice their case at the Colonial Office. Their successors have now an opportunity presented of taking "precipitate action" should they see fit.

The Elliott Ministry have passed through the dark valley and shadow of political death, and there we leave them. Their record is now a matter of history. Their acts and policy—their successes (which have been many) and their mistakes (which have been few) are the property of the country. Against the verdict of the country which removed them from office we have entered a protest; the policy of their successors will determine if that protest can be justified.

CO-OPERATION.

We feel glad to know that our remarks on co-operation in the development of the Cariboo quartz ledges have been favorably received by shareholders in this city. It is hoped that they will be as favorably entertained at Cariboo. If the real value of the mines is to be ascertained during the present year it will be by a united and mutual effort on the part of all the companies. If individual companies are left to struggle along their financial recourses will be taxed too heavily to admit of speedy development. It is no secret now that the attempt to induce foreign capital to embark in the enterprise of opening any of the claims has failed. The invariable reply has been, "Prove your mine to actually contain gold in paying quantities and all the loose money in California will be at the command of your miners." At the present moment there are some twenty incorporated companies at Cariboo and about 250 claims located. These claims require to be proved before they will possess marketable value. But the companies are too financially weak to effect that object, and although there may be "millions in it" no one company has the means to demonstrate the value. Having failed to attract foreign capital the one thing necessary is the co-operation of all the companies in one grand effort to erect the 20-stamp mill now on the ground and crush a sufficient quantity of ore to give a good test of the intrinsic value of the Bonanza lode. The public have reason to believe that there are at Cariboo vast stores of undeveloped wealth; but the lodes might as well be 1,000 fathoms beneath the ocean's wave as where they are unless means can be obtained to extract the precious metal.

[Since the above article was put in type we are informed that a telegram has been received from the Cariboo Company proposing a scheme of co-operation. The idea presents itself as forcibly at the mines as at Victoria. "Necessity is the mother of invention."

The Bride's Home-Coming.

We live in dead men's houses.—*Hawthorne.*

"Who planned that stone seat by the old mossed door,
Facing the daisy starred meadow?"
"A head that was white as the Winter hoar,
When it went down the valley of shadow."

"Who planted yon rose tree, heavy with snow,
Of odorous bud and blossom?"
"Fair hands that were folded long years ago
Over a snow-cold bosom."

"Who trod in the path past the old oak tree,
Down to the sweet voiced river?"
"Feet that now rest by the jasper sea
In the peace of God's Forever?"

"Who drank at the bucket that hangs from yon sweep,
Rusty and musty and broken?"
"Lips that the roses and violets keep
Locked in a dream unspoken."

"Who made the sweet song you are humming so low,
With your eyes strayed down in the forest?"
"One that was sepulchred ages ago,
Singing out his heartache when sorest."

"Who fashioned the hearthstone, where, sitting to-night
We shall taste our love's ripened completeness?"
"One whose long story of bale and of blight
Would poison the new home's sweetness."

"Oh, my husband! I am too young, too young
To dwell where such death-damp lingers!"
"Darling, all chambers of life are hung
With tapestry wrought by dead fingers."

"We tread in the path of by-gone years,
'Mid ghosts of the dead generations;
Life is sweet with their songs and salt with their tears,
And rich with their souls' libations.

"But love, sweetest wife, is evermore new!
A child to the Greeks, 'mid immortals,
A child he is still and forever! With you
He enters to-day through these portals.

"He enters to-day, and goes out no more
Till he through the gloom and the glory
Pass on to the realms of the 'gone before,'
And tell them our own sweet story."

Last Night's Entertainment.

The star of Haverly's Minstrels is by no means on the wane. In fact, every entertainment they give contributes to its lustre. Last evening they were greeted by another crowded house at Theatre Royal and were again accorded a most hearty reception. The programme, although once more thoroughly changed, lost none of its attractions on that account, and the manner in which it was carried out must have proved acceptable to even the most fastidious. The singing of the California quartette; the absurdities of Billy Rice; the peculiarities of Thatcher; and the originalities of Carter and Cushman were excellent. The vocal portion of the programme comprised "Over the Billows," by J. W. Freeth; the Darwinian Theory, by Billy Rice; "The Sweet bye and bye," by J. B. Dixon, admirably sung and loudly *encored*, as well as several well selected songs by Messrs. Roe and Thatcher; the "Comical Coon's Parade," and "The Debut of Kellogg," contributed in a great measure to the success of the entertainment, keeping, as they did, the audience in the very best of humors. The entertainment was an unbounded success, and the various *artists* well merited the applause accorded them.

Foreshadowing.

The N. W. *Herald* says *The Colonist*, with characteristic impertinence, has undertaken to form Mr. Walkem's Cabinet. It may have been "impertinence" on our part to put up the new Ministry; but it is not unpleasing to notice that the caucus held yesterday selected the very Cabinet that three weeks ago we said they must. The distribution of the seats is not in consonance with our predictions; but the men are.

Municipal Police Court.

(Before M. W. T. Drake, Esq., J. P.)

WEDNESDAY, June 26th.

Ah Sew, charged with being a vagrant, was convicted and ordered to appear for sentence in one week.

Mrs. Minnie Morris, charged with using threatening and abusive language to Mrs. Dietrick, was discharged with a caution.

ECONOMICAL GOVERNMENT.—The *Herald* of Westminster is out in favor of economy in the management of Governmental affairs; and as a preliminary step proposes to have four ministers instead of three! This will remind readers of the boy who arriving late at school one morning informed his teacher that the roads were so slippery that for every step he took forward he went two backward, and that he would never have got there at all if he hadn't turned round and gone the other way.

RIMMEL'S AROMATIC OZONIZER.—Langley & Co. have sent us a sample of this new disinfectant which is neither more nor less than the saw-dust of the eucalyptus tree. The aroma emitted is very agreeable and the dust would prove invaluable in almost any place where a disinfectant is required.

LORD DUFFERIN.—Our exclusive dispatch of last night announces that Lord Dufferin has accepted the extension of his term of office, and will remain in Canada for the present.

C. P. R. S.—The establishment of the Canadian Pacific Railway Department in Forbes Building, in this city, has been broken up and the desks, safes, etc., have been removed to the Postoffice Building.

THE steamer Emma with the Texada marble quarry party on board, left here last evening for the scene of operations, *via* Nanaimo.

BUNCH-GRASS A-FOOT.—Lew Campbell brought down 50 head of fine beeves yesterday from Kamloops for Goodacre & Dooley's trade.

FOR SAN FRANCISCO.—The mail steamship Dakota is announced to sail from Esquimalt for San Francisco at four p.m. on Saturday next.

New Westminster District.

[From the Herald.]

A dead body decomposed beyond recognition, was found in the old bed of the Fraser, opposite Chilliwhack, a few days ago. An impression at first prevailed that the body was that of a young lad drowned about a year ago, but at the inquest, held before Coroner Trew, on Monday last, the remains proved to be those of a man, (white) of about 40 or 45 years of age. A leather belt with a knife sheath was around the waist, and on the legs the remains of two pairs of trowsers, of blue jean and dark cloth. No clue to the identity of the remains has been discovered.

At the last meeting of the City Council a committee was appointed to enquire at the Land Office if there is any reservation near the city to which the Indians can be removed, and also to confer with the Indian Superintendent on the subject of removal of Indians outside the city limits.

One of the crew of the ship Elvira Dovale, fell overboard on Sunday last, alighting on some timber which was floating alongside. He sustained a severe concussion of the spine, and is now lying in a dangerous state at Moodyville.

The bark Nellie arrived at Moodyville on Sunday, to load lumber; the bark Quickstep was expected on Tuesday evening at Hastings mill.

[From the Guardian.

A young man named Nesbitt was committed to the Lunatic Asylum yesterday, after due examination by our physicians. He was formerly employed on the Island, and has only been in this city for a short time.

Reports from all parts of the District are most favorable to the growing crops; the Fraser will astonish outsiders this year.

The New Ministry.

A caucus of the supporters of the new Government was held at the rooms of the Hon. Mr. Walkem at 12 o'clock yesterday. Mr. Walkem announced that he had accepted the task of forming a Ministry and that he would discharge the duties of Attorney-General and Chief Commissioner; that Mr. Beaven had been selected for the portfolio of Finance, and that the third seat he left to his supporters to fill. After some little delay Mr. Humphreys was selected and entered into the Ministry as Provincial Secretary. The new Ministry stands, therefore, as follows:

Chief Commissioner of Lands and Works—Mr. Walkem.

Minister of Finance—Mr. Beaven.

Provincial Secretary—Mr. Humphreys.

They were sworn in at 3 p.m. by the Lieutenant-Governor. We understand that the proceedings of the caucus were harmonious and lasted less than one hour. The members present were Messrs. Walkem, Ash, Beaven, Drummond, Humphreys, Wilson, J. W. Williams, F. Williams, Helgesen and McIlmoyl.

Send in the News.

He was a very sensible editor who started upon the rounds the following pertinent advice to his newspaper readers, in reproducing which *The Colonist* would add its hearty endorsement, and indulge the hope that the seed may bring forth fruit in fold well up toward the scriptural hundred.

"Send us the news. When anybody dies, gets married, runs away, strikes a rich gravel or quartz mine, steals anything, builds a house, makes a big sale, whips a man (or his wife), breaks his leg or gets the senses kicked out out of him by a mule or does anything remarkable, and you have reason to believe you know as much about the occurrence as anybody else, don't wait for some other person to report or trust us to find it out by instinct, but come and tell us about it or send us the facts on a postal card. This is the way news is furnished, and it takes a goodly supply of that necessary article to make a good home paper. See if you can improve and let us know every item of interest that transpires in your neighborhood."

CHILLIWHACK. — Our correspondent writing on the 24th inst. states:—The appearance of *The Colonist* in its new dress is a credit to the journalism of the Province. Politics are agitating the people again. Dr. McInnes and Robinson are going to try the battle over again. Dame Rumour prophesies the resignation of E. Brown, M.P.P., to take Mr. Robinson's place in the contest. This settlement will give fully as good a vote as previously, in the Dr.'s favor, for the people are overjoyed over the adoption of the Fraser route, and there is no doubt but he helped the matter greatly while at Ottawa. Settlers from this quarter who visited the dyking scheme at Matsqui pronounce it a substantial work. Mr. Derby is expected at Sumass in about a month or so, to commence operations there. The Royal Orangemen of this place will commemorate the glorious "twelfth" by holding a grand picnic in a grove in the vicinity of McKeever's hotel. The brethren from New Westminster will attend on the occasion. Crops are looking very well; but those on light soil are sadly in want of some rain. Local roads were surveyed by G. Turner, C.E., in 1876 at the request of this Council; after the survey, the Council put many of them in repair by getting them brushed and bridged; the Commissioner did not as yet gazette them, and S. Green has brought the legality of them in question, because the mere matter of gazetting them has not been attended to. Railway construction at Yale next spring is beyond doubt, from the fact that the famous "rusted steel rails" are to be removed, so as not to be offensive to the loyal people of Vancouver.

FRASER RIVER FISHERIES.—The *Mainland Guardian* says:—A meeting of gentlemen interested in our salmon fisheries took place on Saturday last, in order to consider the effect of the late order in Council at Ottawa in relation to the business on the Fraser. It was decided to dispatch a telegram to Ottawa for explanation, and the meeting was adjourned till last evening for the purpose of conferring with the Dominion Agent for the Fisheries Department, who arrived last evening on the Enterprise.

THE steamer Enterprise arrived at 3:15 p.m. yesterday from New Westminster with thirty head of fine cattle from Campbell's ranch at Kamloops for Messrs. Goodacre & Dooley and the following passengers: Mrs. Fairchild, Rev. Mr. McGregor, Rev. Mr. Good, Capt. Hicks, L. Campbell, J. Howison, E. Lequion, McDonald, S. Robinson.

TELEGRAPH.—The work of repairing the telegraph line in British Columbia for the Western Union Telegraph line is progressing, although not very rapidly. The new line extending as far as Saanich, was completed yesterday.

THE steamship Dakota will sail on Saturday, 29th inst., at 4 p.m.

Municipal Council.

WEDNESDAY, 26TH JUNE, 1878.

Present, His Worship the Mayor, (in the chair) Couns. Marvin, Turner, Todd, Redfern, Dalby, Williams, and Shakespeare.

COMMUNICATIONS

Were read from Hon. A. Bunster complaining of the state of the drain opposite his residence on Johnson street.

Coun. Williams explained that the nuisance was caused by a Chinese wash-house a little further up the street. He moved that Sergeant Bloomfield be instructed to lay an information against the chinaman. Carried.

From W. C. Ward, calling attention to the small supply of water at his residence on Moss street. Laid on the table.

From J. Huntington asking for an advance of $965.62½ on behalf of the contract for building the City Hall. Laid on the table.

From J. R. Hett, stating that in addition to the sum of $25 given his client, (Mr. Smith) by the Council, there was a former claim of $50 of which he demanded payment. Received and filed.

From D. F. Fee, asking that the lines of lot No. 30 be defined, and permission be granted to use portion of Park street while building. Granted.

From F. Burgess asking for the proper grade of Fisgard street between Blanchard avenue and Quadra streets. Granted.

From J. Spratt, asking that the lines of the lot at the corner of Fisgard and Store streets be defined. Granted.

From W. F. Tolmie, complaining of having had three heifers impounded and asking that the pound fees be refunded. Referred to the City Barrister.

From the Water Commissioner, reporting that there is no ditch on Fort street sufficient to carry off the water near Mr. Dupont's gate. Referred to the Street Committee.

The consideration of the Water Commissioner's report relative to laying the water to Senator Macdonald's residence was deferred for one week.

The Collector and Assessor reported that Messrs. Croasdaile and Ward had agreed to give $90 per annum for ten years if the water were laid to their residences.

His Worship reported that the chain-gang had repaired the drain on Bastion street.

The Clerk informed the Council that the contract for blasting rock on Fort street had been awarded to J. Elliott at $2.70 per yard.

Coun. Williams protested against any tenders being opened except by the Council.

His Worship explained that he had opened the tenders in order to expedite the work.

The tenders were then read and the award endorsed.

THISTLES BY-LAW.

Coun. Marvin said he thought the Council should take some action with reference to this by-law.

Coun. Shakespeare said that the Street Committee were employing men to cut down thistles on the public roads.

POUND BY-LAW.

Coun. Redfern moved that the Pound By-law be amended so as to enable the Corporation to impound mules and cows.

Coun. Marvin thought heifers should be included.

Coun. Dalby moved as an amendment that the matter be deferred for two weeks and that the City Barrister prepare a proper Pound By-law.

Coun. Redfern said Coun. Dalby's motion was evidently intended to shut out the proposed amendment. The Council appeared to be afraid to do their duty in this respect. Complaints come in night after night and were either handed over to the pound shepherd or the chairman of the three committees to deal with.

Coun. Shakespeare said the by-law was an utter bilk, and he thought it should be burnt, and that the council should then sit down soberly and draw up their own by-law.

Coun. Marvin thought bells should be included in the by-law; as in many instances they were a greater nuisance than the cows themselves.

Coun. Dalby's amendment was put and lost. Coun. Todd moved that the matter be taken up in committee, Carried.

Coun. Todd's motion that the services of the pound shepherd be dispensed with from he end of the month, was laid over till the matter of the by-law be decided.

Coun. Dalby moved that the Council dispense with the services of Mr. Gastineau as Water Commissioner, and employ some one else in his place, who will do the work now being done by Mr. Preece, by contract. He said he moved this because he felt certain that Mr. Gastineau could not find time to attend to the water works and he thought that the office of Water Commissioner should be separate from that of City Surveyor. He believed a person could be hired for $100 per month who would attend to the duties, and the water would be improved, and people would have less cause of complaint than at present.

Coun. Williams seconded Coun. Dalby's motion in that he thought the City Surveyor had if anything more work than he could well do, without looking after the water.

Coun. Todd said he understood the officers were appointed at the first meeting of the Council for one year, the council were not therefore in a position to entertain the present motion.

Coun. Redfern said that an officer could be discharged if he did not do his duty, but there was no proof of this in the present case, he therefore moved that Coun. Dalby lay on the table, in writing, any charges he may have against the Water Commissioner, and he also hand the Water Commissioner a copy of the same.

Coun. Turner seconded Coun. Redfern's motion. He thought Mr. Gastineau was a most competent man, the only charge against him being that he was slow. He thought that putting an incompetent man in as Water Commissioner would have the effect of decreasing the value of the water works debentures.

Coun. Marvin said he did not think Mr. Gastineau had sufficient time to attend to the two offices and the main object of this resolution was to take some of the extra work off his hands so that he might have more time to bestow on the remainder.

Coun. Todd thought it most important that a good engineer should have charge of the works and it would therefore be bad policy to remove Mr. Gastineau and replace him with Mr. Preece, or any one not an engineer.

Coun. Dalby said he had no intention of casting any slur on Mr. Gastineau as an engineer. He believed him to be one of the best surveyors in the city, but he had himself told the Council that he had not time to do all his work, and it was with a view of relieving him of a portion of this that he brought forward this motion.

Coun. Turner said that at the commencement of the year Coun. Dalby moved that the officers be appointed for one year and now he comes forward and without putting forth any charges wants to remove one of them. If there are charges let them be brought forward and give Mr. Gastineau an opportunity of clearing himself.

His Worship said that he thought it would be well to postpone this question for one week, especially as notice was not given until very late on Tuesday. It was a serious question and one which should be carefully considered, so that justice might be done both to the Water Commissioner and to the Council.

Coun. Williams asked Mr. Leigh to read the motion and amendment.

His Worship called Coun. Williams to order, and demanded what right he had to order the clerk to do anything; was he chairman, or what?

Coun. Williams—"There is need of a chairman—

(Cries of order, order and chair.)

Coun. Williams—"You have no right in that chair! Do you not know that you have not the confidence of the rate payers? (cries order! order!)

His Worship said he did not care one snap. The rate payers had placed him there, and he would do his duty in spite of Coun. Williams, and 10,000 rate payers would not make him sit in that chair if he had to deal unjustly with any officer in the Corporation employ. He wished this matter adjourned for one week.

Coun. Williams—Put the motion!

Coun. Marvin moved that the Council adjourn.

Coun. Dalby appealed to the Mayor as to whether the motion to adjourn was in order or not.

His Worship decided that the motion was in order, he not having put the previous motion.

The Council then adjourned.

Matsqui.

The New Westminster *Guardian's* Correspondent writing from Matsqui under date of the 25th inst. says:—

"The weather here, lately, has been very changeable—sultry and cloudy with thunder and lightning, but scarcely any rain. The Fraser has receded to its winter stage after having reached a point a little above our expectations, but without inflicting any damage in this neighborhood. Mr. Turner's survey party are now camped on Matsqui prairie engaged in ascertaining the amount of land, subject from being overflowed, to the assessment for dyking. The dyking operations are going on lively; quite a number of white men and Chinese are now employed, and this number will be increased shortly when the construction of the wharf and flood-gates are commenced, for which purpose Mr. Derby is having a large pile-driver made which, I believe, he intends to work by steam, both for pile-driving and navigation. The serried array of tents along the banks of the river gives an animated appearance to the scene, and the occupants make a good home market for our surplus provisions. We are at last to be favored with a postoffice on the south side of the river—a real convenience which our people will be all thankful for. We are all looking anxiously for the advent of the First of July, when we look for a glorious celebration day. I hope we may not be disappointed."

Electric Photography.

In this age of inventions and discoveries the public receive the most marvellous statements and the most astounding assertions relative to science with a complacence which a few years since could only have been assumed by a philosopher. Following closely on the heels of Edison's phonograph comes the discovery of a process whereby objects travelling at almost lightning rapidity can be accurately photographed by the means of electrical aid. Some five years ago Governor Stanford of California asked Muybridge the celebrated photographer if he could photograph his famous race horse Occident at full speed. His answer was that at that time the instruments would not accomplish it, but that he would give the subject attention, and he thought that it was possible to contrive something which would effect the purpose. His first endeavor was to open the slide of the camera by hand as the horse went by, but this was too slow to give a clear picture; and then a machine was made which would run at a regular rate, and which could be graded to the speed of the horse. This was a very ingenious contrivance, in appearance between a clock and a music box, but the difficulty was to regulate the horse with the machine. For instance, a horse might be timed a mile in 2:24. Part of the distance might be at the rate of 2:20, and the other portion 2:28. This discrepancy would result in a blur, and the outlines would not be shown with sufficient distinctness. This machine had to be started by hand, so that there were two uncertain elements to interfere. Could electricity be used, and the current be controlled exactly at the right moment, the difficulty would be overcome. When Governor Stanford drove the last spike which connected the Union and Central Pacific Railways, and in a figurative sense united the Atlantic and Pacific Oceans, though the broadest part of the continent intervened, the blow of the hammer was echoed by a salvo of artillery from the shores of the bay. The act itself was the herald that announced the completion of the great design; and, surely, if it could thus be drove across mountains and valleys, the same agency would solve this portion of the problem. But it required a large outlay to perfect the machinery, and involved sending for a portion of the work from England. It also required time; but the idea once entertained, could not be abandoned, and the delay only intensified the purpose. Enthusiastically Muybridge entered into the scheme, although he felt jealous of making the subtle fluid the sole artist, and labored assiduously when he returned from his trips to South America and Alaska. The cameras were made in England, having an improved double slide, which made them more perfect, the electric part of the apparatus was made in San Francisco. The background was obtained by making a screen of planks, set at an angle of about twenty degrees from the perpendicular, the surface whitened, and lines stretched across every twenty-one inches. These spaces were numbered from one to twenty. Horizontal lines were drawn, the first on a level with the track, the others with spaces of four inches between them. The track was also whitened for part of the distance across it, and wires were run from the cameras opposite under the surface until within two feet of the background, where they were raised so that the sulky wheel would strike them. These wires corresponded with the lines on the background. On the opposite side of the track, the battery, consisting of eight jars, and the cameras were stationed, the latter numbered from one to twelve. When the horse was driven through, the sulky wheel struck the wire, breaking the circuit, forming picture No. 1. Twenty-one inches the second was struck, and No. 2 was taken, and so on until the whole twelve were imprinted on the plate. This arrangement precluded all suspicion of mistakes, and insured accuracy which could not be questioned. The horse took his own picture. The wheel strikes the first wire, or rather, almost continuous in the roll of sound, as the wheel touches the other wires, and in a trifle over half a second the twelve pictures are registered. The time it requires to take one of the series could not have been the two thousandth part of a second, for if the wires were an eighth of an inch in diameter, and it took all the time of passing that distance, it would not occupy more. But the instant of contact is all, and the improved double slide responds to the magic with such celerity that it cannot be measured. There is a feeling of awe in the mind of the beholder, as he looks at the glass plate which is held before the yellow curtain, and he sees the miniature of the flying horse so perfect that it startles him. Reduced in size until it would do for the scarf-pin of a lady, and yet in the weird, opal-tinted light it is as distinct as if cut on a gem. The eye runs rapidly over the series, and there are positions which could never be explained by any hopothesis, but which cannot be questioned by those who have witnessed the operation.

SPIRITUALISM IN EUROPE.—What is called Spiritualism seems to be far more rampant in Europe than it is here. Like many American inventions, it meets with greater favor there then in the land of its origin. In London and the leading cities of Great Britain, spiritualistic seances are said to be a sort of entertainment as common as kettle-drums and dinner parties. They are very fashionable, and everybody who is anybody attends them. Pictures of mediums and materialized apirits, as they appear in the open circle, are published in the English spiritual journals. Slade, whose tricks were exposed here, has received magnificent presents of watches, jewelry, and diamonds in Berlin. His seances have been attended in Germany and Russia by the highest nobility. In the capital of the former empire he exhibited to the chief of police, and the court conjurer, who narrowly watched the proceedings, and made oath that the phenomena were not tricks. Mrs. Macdougall Gregory, widow of Professor Gregory of Edinburgh University, is pronounced a firm believer. She gives spiritual receptions—so they are styled—and they are attended by high church dignitaries, some of whom are asserted to have proclaimed the truth of the new philosophy from the pulpit. The Imperial families of Russia and Germany, Bismark, President MacMahon, Gambetta, Gladstone, Disraeli, Browning, Carlyle, Tennyson, and all other renowned personages, are reported to be Spiritualists; but the report must be accepted, we suppose, as are the Milesian stories that every noted man since the Ptolemies has, at some time or other, been born in Ireland.—*N. Y. Times.*

CAPITAL is timid, and the saying that there is nothing more cowardly than a million of dollars except two millions, is quoted in a letter just issued by Congressman Clarkson N. Potter, explaining the scope and purpose of the "fraud" investigation which has been ordered on his motion. Here is a case in point, to prove the truth of the remark. The Virginia, Nevada, *Enterprise* says:—"Ten million dollars in gold have been sent to foreign countries from the Pacific coast in the last four months, because the owners were afraid to invest it on account of the Communistic uprising of the workingmen under Dennis Kearney." It appears that Communistic threatenings, even if they stop short of fire and sword, may yet inflict damage on a country.

A CITY IN TWO STATES.—This is perhaps the only city in the world that has two Mayors and two City Governments, police, etc., and is taxed in two States. The line between Tennessee and Virginia is the centre of Main street, and it gives rise to many funny scenes; as, for example, the runaway couple need no coach and four, but, arm in arm, walk across Main street and are wedded. The fugitive commits a crime in Virginia, goes to the pavement on the other side of the street, and talks defiantly to the officer on the opposite side, who has a warrant for his arrest. A misstep or a too bold disposition will sometimes, however, come to grief. Several instances have occurred of a fugitive being hustled across the line by a party prepared, while in the act of holding such a conversation, and they tell of a man who defiantly perched himself on a pile of store boxes within six feet of the line, jeering the officers on the other side, but unfortunately for him, some law-abiding citizens tilted the boxes, and when he reached the ground he was in the other State.—*Bristol Corr. Philadelphia Press.*

HOW THE BISHOPS SWORE.—It must be admitted that Lord Melbourne used to swear a great deal, but in this accomplishment he was excelled by his brother George, the Under Secretary of the Home Department, who, when Evelyn Dension went to consult him about the educational clauses of the Factory bill, damned him, damned the clauses and damned the bill. On complaining of this to Lord Melbourne, the only consolation he got was, "Well, damn it, what more could he say?" One night, at Holland House, Lord Melbourne stigmatized the Benthamites in general, and the Austins in particular, as d——d fools. When the Earl of Mulgrave wanted to become a Marquis, Lord Melbourne is said to have answered, "My dear Mulgrave, how can you be such a d——d ass?" On a Scotch Earl demanding the Order of the Thistle, Lord Melbourne said, "Why, d—— it, he'll eat it." There is no excuse to be made for this habit, that everybody swore in former times except the Bishops. We never read in any memoirs an instance of a Bishop swearing. But the late Bishop of Exeter, when he got into hot water with any one, used to pray for his antagonist with such malicious fervor that a little light cursing would have been a relief to the sufferer. However, we are bound to admit that a waiter lately left the Athenæum, and gave as his reason for his wishing to serve a military club, "that the bishop swore awfully if his mutton chops were not up to the mark." But then servants always romance about their late masters.—*Temple Bar.*

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY,

No. 623 KEARNY STREET, corner Commercial, San Francisco, established in 1854, for the treatment of Nervous and Chronic diseases of all kinds, Skin Diseases of years' standing and Ulcerated Legs, etc., successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have the medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing TEN DOLLARS in a registered letter through the post office, or through Wells, Fargo & Co., a package of medicine will be forwarded by Express to any part of the world.

Please say you saw this advertisement in the BRITISH COLONIST.

Address, DR. J. F. GIBBON,
ap23tf Box 1057, San Francisco.

DR. SPINNEY & CO'S DISPENSARY,

NO. 11 KEARNEY ST., SAN FRANCISCO.

DR. SPINNEY, WELL KNOWN AS THE FOUNder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY, would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED.

It matters not what your troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $5 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.
